

Long Range Panel Antenna – ISO15693

iDTRONIC's Long Range panel antenna – ISO15693 is the ideal device for access control, supply chain and library applications. It goes perfectly with the iDTRONIC EzScan LR reader. The reading distance can be up to 100cm (depending on the tag type).

Applications:

- Access Control
- Production Control
- Library

Product specification:

Description:	Panel antenna
Frequency:	13,56MHz
Material:	Black Acrylic
Dimensions:	30 x 42 x 2cm
RF Rating:	up to 2W
Weight approx.:	3kg
Impedance:	50 ohm
Interface:	Coaxial BNC Connector
Operating distance:	Up to 100cm (depending on tag type)
Temperature:	-10 to 60°C
Humidity resistance:	IP54
Order code:	R-EZ-LR-PAAN30X42
