

## Powersplitter

The iDTRONIC Powersplitter is used for 1 antenna “in” and 2 antennas “out” function. It is suitable for gate applications with 2 active antennas connected to one reader.

### Product specification:

<b>Dimensions:</b>	24 x 39 x 58mm
<b>Weight:</b>	100g
<b>Material:</b>	PCB Board with connectors
<b>Max. power:</b>	8W
<b>Interface:</b>	1 x BNC (50Ohm) input channel from reader 2 x BNC (50Ohm) output channels to antennas
<b>Temperature range :</b>	-25 ↔ 85C°
<b>Order number:</b>	R-EZ-PWR
