

# New in The RFID Shop

September 2017

## American Express is now accepted on The RFID Shop!

Our international customer base has been increasing steadily and we are always aiming to make shopping at The RFID Shop more convenient for everybody.

We are therefore pleased to announce that The RFID Shop is now able to accept payments made with American Express cards.

## New HID Seal™ Tags now available

### RFID TAGS WITH INTEGRATED FASTNERS PREVENT TAMPERING WITH THE CONTENTS OF SEALED CONTAINERS

- **Security** – RFID tags integrated into visually tamper-evident container seals
- **Adaptability** – Small and flexible to serve a wide range of applications
- **Easy application** – Attach quickly with integrated cable tie or wire loop
- **Clear evidence** – Visual recognition of seal status, with option of RFID reader detection of seal security or breach

HID Global® Seal Tag transponders are ideal for sealing commercial containers – bags, bins or boxes – to prevent unauthorized access to contents while in storage or during distribution. Seal Tag units integrate powerful RFID chips with high durability components, and secure, tamper-evident fasteners. Access to a sealed container's contents requires severing a tag's cable tie or wire loop – or breaching of the container itself – providing clear evidence of tampering.

Available in HF and UHF

### The RFID Shop is a HID Silver Advantage Partner

Our membership certifies that customers can purchase HID products and solutions with absolute confidence in quality, performance and support at The RFID Shop.
