

MIMOBridgePoynt

2.4 - 2.5 GHz

Product code: WLAN-A0030

Poynting's BridgePoynt range provides everything you need for professional outdoor wireless networking. The range includes weatherproof outdoor enclosures with integrated antennas, cable assemblies, electronics, power injectors and ancillary products.

These products can be combined into highly professional custom solutions that cater directly to a clients needs.

This product, the WLAN-A0030 is an outdoor enclosure with an integrated dual 8 dBi MIMO antenna and a pole-mounting bracket. This product is well suited to CPE applications and point-to-point links. The dual antenna's with vertical and horizontal polarisation increases diversity, thus decreasing the effects of multi-path fading.

Each WLAN-A0030 includes an enclosure with integrated antenna and 6 movable posts with self tapping screws and double-sided tape to mount your electronics. A pole mount bracket with elevation tilt is also included.

Features:

- Weatherproof enclosure for outdoor use
- Integrated dual 8 dBi antenna for diversity
- Insignificant RF cable losses
- Aesthetically pleasing

Application:

- CPE applications
- Point-to-point links
