

## OEM Read/Write Stick - 125kHz

The iDTRONIC OEM Read/Write Stick 125kHz has been designed for the support of all EM Read Only and Read/Write and NXP Hitag tags (including Hitag S).

The iDTRONIC 125kHz RFID Read/Write Stick has a very compact format which makes it useable for many different applications. It comes with a small integrated antenna and USB interface.

### Applications:

- Desktop Readers / Encoders
- Printers
- Access Control
