

iDTRONIC's Flex Tag UHF has specifically been designed to stand moving objects.

The iDTRONIC Flex Tag UHF is a very flexible and light RFID tag made of PVC / PET material. It has been designed for asset tracking and car identification applications.

Due to standard mounting holes and the adhesive layer on the backside, mounting on any material is very easy. The FlexTag UHF is fully printable with 4 color offset printing.

Applications:

- Asset Tracking
- Car Identification

Technical Data

Mechanical Specifications

Dimensions:	115 × 20 × 2 mm
Material:	PVC / PET
Protection Class:	IP54

Electrical Specifications

Frequency:	868-916 MHz
Chip Types:	ISO18000-6 C Alien Worldtag Higgs 3 G2, Squiggle SH
Memory:	512 bit

Environmental Conditions

Temperature Range:	-15 °C to +70 °C
