

1 **EU - Type Examination Certificate**

2 Equipment intended for use in Potentially Explosive Atmospheres Directive 2014/34/EU

3 Certificate Number: ExVeritas 21ATEX1101X Issue: 0

4 Equipment: INTAG Passive RFID Tag.  
PN 62918X-012-EX & PN 63918X-012-EX

5 Manufacturer: HID Global Corporation

6 Address: 47B Gillitts Road, Westmead, Durban KZN, 3610, South Africa

7 This equipment and any acceptable variation thereto are specified in the schedule to this certificate and the documents therein referred to.

8 ExVeritas, Notified Body number 2804 in accordance with Article 17 of the Council Directive 2014/34/EU of 26 February 2014, certifies that this equipment or protective system has been found to comply with the Essential Health and Safety Requirements relating to design and construction of equipment and protective systems for use in potentially explosive atmospheres given in Annex II to the Directive

9 Compliance with the applicable Essential Health and Safety Requirements has been assured by compliance with the following Standards and section 16 of this certificate:

EN IEC 60079-0: 2018

EN 60079-11:2012

10 If the sign "X" is placed after the certificate number, it indicates that the equipment is subject to special conditions for safe use specified in the schedule to this certificate.

11 This EU-Type Examination Certificate relates only to the design, construction, examination and tests of the specified equipment or protective system in accordance to the Directive 2014/34/EU. Further requirements of the Directive apply to the manufacturing process and supply of this equipment or protective system. These are not covered by this certificate.

12 The marking of the equipment shall include the following:

II 1G Ex ia IIC T6 Ga  
II 1D Ex ia IIIC T85°C Da  
I M1 Ex ia I Ma  
Ta = -60 °C to +75 °C

On behalf of ExVeritas

Peter Lauritzen  
Managing Director

## Schedule

### 13 Description of Equipment or Protective System

The INTAG 200/300/500 HF EX is a passive RFID tag which is intended for fixed installation onto devices for asset identification in hazardous areas. It is used to mark devices with their electronic data for tracking and identification purposes. A suitably approved RFID reader is used to scan the device when situated within a hazardous environment. When placed onto the asset, the tag itself may exist in mines susceptible to firedamp, hazardous gas, or conductive dust atmospheres. The device will encounter ambient temperatures between -60°C to +75°C when in operation with no external sources of heating or cooling. There are six part numbers for the tag. The only difference between each part is the diameter of the tag and manufacturer of integrated circuit, all other aspects remain identical. These aspects do not affect the type of protection.

Name	Diameter	Full Part Number	Processor
INTAG 200	20 mm	PN 629182-012-EX	NXP ICODE SLIX2
		PN 634182-012-EX	FUJITSU FRAM 2KBYTES
INTAG 300	30 mm	PN 629183-012-EX	NXP ICODE SLIX2
		PN 634183-012-EX	FUJITSU FRAM 2KBYTES
INTAG 500	50 mm	PN 629185-012-EX	NXP ICODE SLIX2
		PN 634185-012-EX	FUJITSU FRAM 2KBYTES

### 14 Descriptive Documents

### 15 Conditions of Certification

#### 15.1 Special Conditions for Safe Use

- The enclosure of the device is made from non-metallic materials that under certain conditions may accumulate ignition-capable electrostatic charges. It shall not be installed where the external conditions are conducive to the build-up of electrostatic charges. Additionally, the equipment may only be cleaned with a damp cloth.
- When installed and/or used in the hazardous area, the tag may only be used with an RFID reader which is suitably approved to the explosive atmosphere standards.

#### 15.2 Conditions for Use (Routine tests)

- None.

## Schedule

### 16 Essential Health and Safety Requirements

Essential Health and Safety Requirements are addressed by the standards listed in section 9 and where required the report listed in section 14.1. The manufacturer shall inform the Notified Body of any modifications to the design of the product described by this schedule.
